

SOCIAL MEDIA MANAGEMENT & MARKETING

Results driven social media management & marketing services from the experts!

Recent statistics show that the average person checks their social media accounts around 7 times per day. Furthermore with over 1 billion users on Facebook alone, using social media to promote your business online in order to create brand awareness and acquire new customers has now become a favoured marketing strategy with both small businesses and big brands.

Here at Social Agents we are dedicated to helping brands, businesses, celebrities and various enterprises establish a strong and lasting online and social media presence.

We consist of a dedicated team of marketing, advertising and design experts collectively brought together to ensure our clients receive measurable results and a guaranteed return on investment via the creation of a bespoke marketing plan, followed by the implementation of daily engaging content and targeted social media advertisements.

How our services can help your business:

- Increase your social media & online presence
- Connect with your target market
- Promote your products/brand/business
- Explore new markets
- Find new customers
- Maximise your sales conversion rate
- Grow your online community
- Increase visitors to your website
- Stay one step ahead of your competition

Social media is becoming too big to ignore, over 80% of businesses are now active on social media, if you are not one of them you will be left behind.

WEBSITE DESIGN & DEVELOPMENT

Responsive website design and development for your business from only £349!

When it comes to your business, nothing is more important than your website. It is the most important component of any marketing plan! This is where your customers will be drawn in to you and your business!

Here at social agents we can help increase your business exposure and professional presence with a fully optimised mobile and desktop enabled site with a fully integrated content management system built by our in house website design and development team to your requirements!

The complete package to get your business online:

- Website design & development
- Logo & branding included
- WordPress custom design
- eCommerce available
- Custom plug-in development
- Contact forms & maps
- Hosting & management
- Business Email setup
- Search engine optimisation

Our team will work with you to ensure we design a website as unique as your business itself. We will also confirm your requirements and inform you of suggested designs, layouts and ideas followed by ongoing support and training on how to make updates to any blogs or shopping carts once your new website has been completed.

We also offer website redesign services due to the latest update from google which has resulted in businesses loosing google listings/rankings due to websites not being optimised for mobile and tablet.

All of our work is specifically tailored to meet our clients requirements! No two clients are the same, contact us today to discuss your new website and obtain a free quotation!
